THE FORMAT

This format is categorized into two different parts.

1. **(Binary option) Account Manager**
2. **Errand Boy**

1. ***(Binary option) Account Manager:*** here you will act as an account manager that's the trader. You will tell your target that you are a binary trader, say you go manage him/her account for him/her and your charge for that na 10% of any profit you made after the trade.

Common questions your target may ask you as the journey proceed.

- (Q) How much is your minimum equity/deposit (A) \$250 (But encourage them to fund from \$5,000 above give them all assurance say their fund will not be lost.)

- (Q) Do I need to send you the money to invest (A) No, you will tell the target to go to the website and register, verify his/her account then use his/her hand to fund the account thereafter, send you his/her username & password for you to start the trading. This is where the game begins ☺ ... \\\ Note: You will tell the person that you don't have access to his/her withdrawals, therefore you people will enter an agreement that he/she will withdraw the money and send you your 10% charges from the profit.
(Here as soon as your target funds his/her account and sends you his login details (username and password) all you need to do is to send only the username to us to enable us know that you are the one that brought the client. Then we will freeze the fund and send you your 50% sharply No time at all! ☺)

Some Frequent Asked Questions by our Gees:

1. How do you know if the target that deposited funds to his/her account was referred by me? Answer: Very simple, All you need to do is to send us the full name of your target and always keep in touch with them, as soon as they deposited alert us. We will check from our system and send you your 50% share.
2. How will I know if my target has deposited fund in his/her account? Answer: You'll always keep in touch with them and know if they have deposited or not.
3. What will I do with the client if his/her account has been freezed and money has been shared ? Answer you keep dribbling the target till you finally block him/her. In this case don't be in a hurry to block them, becos they might end up fall in your trap the second time. Take note of that OK?

4. What method will I use in blocking them? Answer: Before you block any of your target first check if you have any mutual friends with them, the very first thing is to first of all block those mutual friends before blocking that target. This is becos he might post your name and picture on his wall or report you to his friends and they might end up reporting to facebook, and once they do, Mark will block you sharp sharp.
